

VDA 6.3

Process Auditor

Extensive knowledge and experience are needed to perform VDA 6.3 process audits. These VDA QMC trainings for gaining the initial auditor qualification, upgrading to the new standard VDA 6.3:2023, and extending your existing

auditor certificate offer participants the opportunity of obtaining the relevant background knowledge and acquiring the necessary skills.

Initial qualification

ID 381

“VDA 6.3:2023 – Process Auditor - Qualification”

Duration: 4 days

- Qualification for working as an internal auditor and supplier auditor after passing the knowledge test

ID 382

“VDA 6.3:2023 – Process Auditor – Examination”

Duration: 1 day

- Qualification for working as a certified process auditor after passing the knowledge test (for which you must apply)
- Certification is valid for five years.

Upgrade to the new revised standard VDA 6.3:2023 and extension of an existing certificate

ID 333 / ID 384

“Upgrade from VDA 6.3:2016 to VDA 6.3:2023”

Duration: 1/2 day / 2 hours

- Available as a live online training (ID 333) or web-based seminar (ID 384)
- Provides information about changes to the previous standard VDA 6.3:2016
- Forms the basis for extending an existing certificate

ID 341

“VDA 6.3 for Certified Process Auditors – Workshop”

Duration: 1 day

- This training is for participants who cannot provide documentary evidence of the number of process audits required for extending their existing auditor qualification.

Your application to extend an existing certificate must be made using form ID 386 “VDA 6.3:2023 – Certified Process Auditor – Extension”.
